Facilities/Transportation Committee

Summary of Meeting

1. **FACILITIES**
   **Middle School Auditorium Update/Presentation**

   Mr. Robin Breslin reviewed design development plans with the Committee, using a virtual tour of the Middle School Auditorium and discussing topics such as seating, staging, storage, auditorium accessibility, project schedule and estimated costs.

   Recommendations will be presented for approval at the August 21, 2017 Board meeting, for authorization of the administration to continue with the project contract with 1) Breslin Architects for construction-bidding documents requiring approval prior to proceeding with the next phase, and 2) T&M Associates for land development.

2. **District Wide Summer Projects Update**

   A brief overview of 2017 Summer projects was discussed by Mr. Moore. District projects are generally “on time”, with a few small projects still in progress. A detailed update will be presented to the Board at the September Facilities meeting.

3. **High School Fab Lab**

   The Technology Education Curriculum is currently in stage 2 of program development, with emphasis on the following curriculum goals:
   
   1. Communication Video Production
   2. Computer Applications & Gaming
   3. Architectural & Engineering Programs

   Newly implemented programs may require reconfiguration to existing space at the High School, developing areas for the best use, educationally. The Facilities Department will be investigating architectural firms having a background in maker Space/Fab Lab engineering and construction to bring back and present to the Board for approval.
1. **TRANSPORTATION**  
   **Update on Bus Schedules for 2017-18**  
   All 2017-18 bus routes have been reviewed by the Transportation Department. Busing information is expected to be available on the District website by August 18 or August 21, 2017.

1. **Informational**  
   North Wales Water Authority is currently installing a new water main on Symphony Lane. The district has been in communication with the Water authority to help ensure the work schedule will not affect traffic during school arrival/dismissal.
