

# Get to Know Our Mobile App!

## Easy Access to School Info

WSD families can access the most commonly used school information & customized news via our mobile app. Better yet, the FREE mobile app allows users to set their preferences to receive calendars, lunch menus, news and resources for the Wissahickon schools of their choice!

Don't ever miss an important event or deadline! Users can also enable push notifications for specific schools. These helpful reminders automatically pop up on your mobile device (*please note: notifications are controlled through the app & do not have any impact on your text messaging plan!*)

Search Wissahickon School District in the App Store on your Apple, Android or Windows device and download the app TODAY!

## Mobile App Features: Where To Find the Info You Need

When you first download the app, it will prompt you to choose your settings. Select the schools you want information from & allow Push Notifications if you would like automatic reminders. All users receive district news, bulletins and events.

Calendar

Events from the district and selected schools is displayed & can be synced to your calendar
