

# NEXT STEPS WITH MVP

## STUDENT ENROLLMENT

The home school district works with MVP to confirm and enroll your student(s) for the upcoming term.

## LOGIN ACCOUNTS GENERATED\*

**Emails** containing login credentials are automatically sent when the student account is created. These emails are sent to the student and parent email addresses on file. No courses will appear in the system until the start date of the course.

## MVP WELCOME LETTER

This **email** will contain important details about the start of the term, confirm the email addresses on file, and outline the timeline for K-5 students to expect workbook delivery.

## COURSE ACTIVATION NOTIFICATION

On the start date of your course, you should receive an **email** that your course is now available. Be sure to log in, confirm your course schedule, meet your teachers, and get started!

*\*Emails will come from [noreply@Edgenuity.com](mailto:noreply@Edgenuity.com) or other content provider email addresses that may be flagged as spam. Please check your spam folder if you are expecting information.*
